GENERAL INSTRUCTIONS

These instructions apply to the normal routing of carload freight between points on the Pennsylvania Railroad; also New York and Long Branch Railroad, Pennsylvania and Atlantic Railroad, Pennsylvania-Reading Seashore Lines, Baltimore and Eastern Railroad, and the Cherry Tree and Dixonville Railroad.

For routing to and from points on foreign lines the instructions in this publication apply ONLY to the routing to and from the authorized junction points with the said foreign lines.

To determine the route from one point to another:

1. By reference to List of Stations, Page 5 to Page 26, determine the Group-Numbers designating the point of origin, and the point of destination.
2. Refer to the Cross-Index of Group-Numbers, Page 33 to Page 59:
 - a. Locate on vertical marginal column the Group-Number of the point of origin.
 - b. Locate at top of page the Group-Number of the point of destination.
 - c. The Route-Number is shown at the intersection of these two columns.
3. Refer to Explanation of Route-Numbers, Page 60 to Page 81, for complete route, including notes where special routes are established.
