

## INSTRUCTIONS

Form M. P. 411 Lube Oil Record is to be placed in cab certificate holder, Acct. & Ref. 36A-956, which is to be mounted in engine room on the bulkhead adjacent to engine lube filling connection. These cards are to be changed at time of monthly inspection. The card removed is to be retained on file at the maintenance point to which locomotive unit is assigned as a permanent record of lube oil viscosity and consumption. Viscosity of lube oil must be taken and recorded prior to adding any make-up oil. Viscosity and gallons added, if any, must be recorded at the end of each trip or turn around inspection.

Any time a change of crankcase oil is made, the reason for the change and corrective action taken must be noted below:
