PENNSYLVANIA RAILROAD CO.

PASSENGER DEPARTMENT.

CHART OF FORMS FOREIGN TICKETS

TO

POINTS WEST OF PITTSBURGH, BUFFALO,
CORY AND ERIE

AND DESTINATIONS WEST OF ONTARIO.

For Chart of Blank Extension (BX) Forms, see pages 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19,
20, 21 22, 23, and 24.

For Chart of Blank Forms, from place of sale to destination point, see pages 25, 26, 27, 28 29, and 30.

For Chart of Feeding Forms, see page 31.

For Chart of Blank Skeleton Extension Forms, see page 31.

For Chart of Texas Feeding Forms, see page 32.

For Chart of Paster Feeding Forms, see pages 32, 33, and 34.

For Chart of Transfer Forms, see pages 35 and 36.

For Chart of Special Service Tags, see page 37.

For Chart of Party Ticket Forms, see page 37,

PHILADELPHIA, DECEMBER 15, 1917.

Passenger Traffic Manager.

General Passenger Agent,

General Passenger Agent,

TO TICKET AGENTS.

The system of Tickets now used by this Company consists of Complete, Feeding, Extension Forms, Transfers and Texas Contracts.

COMPLETE FORMS.—These forms, as the name indicates, are complete forms from starting point to destination, and consist of an Agent's stub, contract and one or more coupons attached, with the route and Junction Points printed thereon. There are three kinds of Complete Tickets: Single Destination Tickets which show one destination properly printed on each coupon and contract; Davis Patent Tickets, showing various destinations printed thereon and necessitating the cutting of the ticket to the destination desired; and Blank Destination Tickets, which necessitate writing the destination on Contract and each coupon before delivering same to passenger in accordance with rules and regulations in Passenger Tariffs.

FEEDING FORMS.—There are three kinds of Feeding Forms—Feeding Forms that are to be used to Junction Points of this Company, Texas Feeding Forms, and Paster Feeding Forms, to be used on business to other points.

EXTENSION FORMS.—Extension Forms are similar to the complete forms in that there are three kinds of Extension Forms—Single Destination, Davis Patent, and Blank Destination Forms. Extension Forms used in connection with Feeding Forms or Complete Forms should be treated the same as Complete Forms in cutting to the destination and in writing in destination.

TRANSFERS.—Transfers covering transfer of passenger only, transfer of baggage only or transfer of passenger and baggage between depots or between depots and steamship wharves in various cities are shown and the use of same is authorized and explained in regular Passenger and Baggage Tariffs in connection with the sale of tickets, checking of baggage, &c.

TEXAS CONTRACTS.—Texas Contracts are Paster Contracts that are to be used on all tickets sold to points in the State of Texas or to points reached through the State of Texas and where an Extension or other form of ticket is used that cannot be attached to the through ticket the regular contract should be detached and a Texas Contract attached in lieu thereof.

SIGNATURE TICKETS.—Where provision is made in contract of ticket for the signature of the purchaser, it must be written with pen and ink, and signature of ticket seller affixed as witness. All tickets reading to or through points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming must be of form requiring signature of purchaser and of ticket seller as witness.

These various forms of tickets should be issued under the following general instructions:

1. The Chart of Forms is divided under three general heads—Westbound, Miscellaneous and to Points South of Washington, Baltimore, Delmar and to Southwestern Points via Harrisburg and Hagerstown.
2. That section of the Chart of Forms designated "Westbound" shows forms of tickets to be used in ticketing via Pittsburgh, Buffalo, Corry, and Erie, and destinations West of Ontario; also Extension Forms of tickets reading from points West of these Junction points which can be used in connection therewith.
3. That section of the Chart of Forms designated "Miscellaneous" shows forms of tickets to all points except West of Pittsburgh, Buffalo, Corry, and Erie, and destinations West of Ontario, and South of Washington, Baltimore, Delmar and Southwestern points via Harrisburg and Hagerstown.
4. That section of the Chart of Forms designated "South of Washington, Baltimore, Delmar and Southwestern Points via Harrisburg and Hagerstown" shows forms of tickets to destinations in accordance with its caption. It also shows Western destinations and forms of tickets that can be used in ticketing via Washington in connection with the Chesapeake & Ohio Railway, which can be combined with Extension Forms from Western Points shown in section of the Chart of Forms designated "Westbound."
5. Paster Feeding Forms are to be used in connection with Extension Forms, and when same are properly pasted together they will form complete tickets to destinations by desired routes. Feeding Forms may also be used to certain gateways in lieu of regular contracts and coupons where continuous train form of tickets are necessary and proper forms of tickets are not in stock; but when used in this connection, care should be exercised to see that the two parts of the ticket are properly pasted together.
6. A Complete Form may be sold to any point printed on the ticket or shown in the Chart of Forms as located on such ticket to which fare is quoted via the same route, and where Blank Destination Form is used, the destination and State should be plainly written in ink on stub, contract and each coupon.
7. Feeding and Extension Forms should be carefully selected to read via the route requested by the purchaser and via which fares are quoted. When pasted together they will form a complete ticket to destination desired, and if a Blank Extension Form is used, destination and State should be plainly written in space provided.
8. In selling limited tickets, Agents should see that same are limited with "L" punch in accordance with limits authorized by the various Passenger Tariffs in space provided, cutting out the day, month and year, and also cut with "L" punch in the centre of each coupon. If ticket is to be unlimited, ticket should be stamped with dating stamp only and "L" punch should not be used.
9. When tickets are sold at Mixed-class fares, Agents should use First-class forms of tickets, reducing same to second-class by use of second-class punch or by writing the words "Second-class" on contract and each coupon of the tickets beyond the gateways specified in Passenger Tariffs.
10. When tickets are sold at half fares for children five years of age and under twelve, each coupon and contract of ticket should be cut with " $\frac{1}{2}$ " punch, or, if Agent does not have " $\frac{1}{2}$ " punch, the word "Half" should be plainly written with ink on contract and each coupon.
11. In issuing tickets that have space provided in the contract for signature of purchaser, the signature of purchaser should be secured and the name of ticket seller signed as witness, before ticket is stamped or delivered. When passengers are unable to sign their name, ticket seller should sign for them and require their mark in the signature.
12. Extension Forms can be sold in connection with Complete Forms when Complete Forms to the destination desired are not in stock. Care should be exercised, however, to see that proper Junction Points are used and that fare properly applies via the route and Junction Points used.
13. Blank tickets Forms A1, A2, A3, A4, A5, and A6, consisting of Agent's stub, contract and the number of blank coupons as designated in the forms, have been furnished Agents for use where proper forms of printed tickets are not in stock. In issuing these tickets Agents will be careful to write with ink on each coupon the title of the road and the points between which the coupon is to be used, and insert in the same manner the destination and State on contract and each coupon. Care should be exercised to have the coupons read in proper order. The coupon to be used last must be next to the contract.
14. In issuing tickets, Agents will stamp the actual date of sale on the back of the contract and each coupon.
15. If an error is made in issuing a ticket, do not attempt to make any corrections or erasures, but mark ticket spoiled, and return it with monthly report in accordance with instructions of the Auditor of Passenger Traffic.
